OUR MISSION

We improve the quality of life for children and adults who suffer from Allergy, Asthma and Immunology related illnesses.

*Leaders in Allergy and Asthma Care
for Over 40 Years*

STAFF AND OFFICES

We are proud of the skilled, compassionate and efficient staff of Colorado Allergy & Asthma Centers. They greatly contribute to the responsiveness and quality of your care.

Health Care Staff:

- Physician's Assistants (PAs), Nurse Practitioners (NP): take histories, perform exams, prescribe and refill medications, and treat acute illness, all under the guidance of a physician.
- Nurses, Medical Assistants, Respiratory Therapists: assist with patient visits, administer allergy injections, immunizations and medical treatments, triage phone calls, refill and process prior authorizations for medications, perform skin testing.

Office Staff:

- Front desk personnel: provide a professional and friendly atmosphere, schedule convenient appointments, manage telephone calls, and provide information for billing and insurance.

Monica B. Reddy, M.D.

Dr. Reddy joined Colorado Allergy & Asthma Centers in 2016. Her passion is clinical medicine. She believes that the foundation of the doctor and patient relationship is effective communication. She works together with her patients to formulate an effective treatment plan, and practices evidence-based medicine.

Dr. Reddy graduated from the Case Western Reserve University School of Medicine in the Alpha Omega Alpha Honor Society. Her residency at the University of Colorado was followed by a fellowship in allergy and clinical immunology at National Jewish Health in Denver, Colorado.

Dr. Reddy has been actively involved in multiple local and national medical societies. She is an active member of the Colorado Allergy and Asthma Society, American Academy of Allergy, Asthma and Immunology and the American College of Allergy, Asthma and Immunology.

Dr. Reddy lives in the Denver area with her husband. In her free time she enjoys hiking, skiing, and spending time with her friends and family.

DENVER-HIGHLANDS OFFICE 720-858-7474

Immune Deficiency

YOUR FIRST VISIT

Before your first visit you will be provided with a comprehensive medical history form. This will either be mailed to you or may be accessed on our web site at www.ColoradoAllergy.com. You need to bring this completed to your initial visit.

Your first visit generally includes a thorough medical history, examination, and testing. Based on the evaluation the doctor will formulate a diagnosis and recommend treatment options. The treatment plan which you and your doctor have chosen will be outlined in detail. Education regarding your diagnosis and treatment plan is an important part of your initial visit.

A patient's symptoms can vary with age, season, environment, general health, diet, and even stress. Based on all of these factors, as well as any other relevant issues, we will work with you to design a treatment program which results in the most effective therapy for your medical problems. Our goal is to arrive at a treatment plan which allows you to take control of your asthma or allergy issues. At any time during your visit, please feel free to ask questions if there is something that you do not understand.
