OUR MISSION

We improve the quality of life for children and adults who suffer from Allergy, Asthma and Immunology related illnesses.

Leaders in Allergy and Asthma Care for Over 40 Years

Leon S. Greos, M.D.

Dr. Leon Greos joined Colorado Allergy and Asthma Centers in 1993. He is certified by the American Board of Allergy and Immunology. Dr. Greos emphasizes prevention of allergy symptoms through identification of triggers, patient education and rational use of preventive medicine.

Dr. Greos received his Bachelor's Degree from Amherst College and Doctor of Medicine from the University of Southern California School of Medicine. Following his internship and residency at the University of Washington, Dr. Greos completed fellowships in pediatrics and allergy and clinical immunology at National Jewish Center for Immunology and Respiratory Medicine. Dr. Greos entered private practice in Sacramento, California before returning to Colorado to join our group.

The most stimulating aspect of allergy and asthma care, according to Dr. Greos, is attempting to discover the particular pattern of each patient's condition and effective care.

Nan Laoprasert, M.D.

Dr. Nan Laoprasert joined Colorado Allergy and Asthma Centers in March 2003. She is certified by the American Board of Allergy and Immunology.

Dr. Laoprasert received her Doctor of Medicine from Chiang Mai University in Thailand, where she also served as an instructor in pediatrics following her pediatric residency. She then entered the U.S. and completed her residency at the University of Illinois in Chicago and The Mayo Clinic in Rochester, Minnesota. Dr. Laoprasert also completed fellowships in allergy and clinical immunology at The Mayo Clinic and spent another fellowship in allergy and clinical immunology at The Children's Hospital in Boston. Since completing her fellowships, Dr. Laoprasert has entered private practice and also served as a Clinical Professor at the Pikeville School of Osteopathic Medicine in Pikeville, Kentucky.

Dr. Laoprasert is committed to providing the highest standards of care to the patients in our Colorado community.

Andrea Jones, M.D.

Dr. Jones joined Colorado Allergy and Asthma Centers in 2016. She completed a fellowship in Allergy and Clinical Immunology at National Jewish Health in Denver, Colorado. She is an active member of the Colorado Allergy and Asthma Society, American Academy of Allergy, Asthma and Immunology and the American College of Allergy, Asthma and Immunology.

Dr. Jones is a Colorado native and graduated from Colorado State University with a degree in biochemistry. She earned her medical degree from the Medical College of Wisconsin. She is a board certified pediatrician and completed residency at Phoenix Children's Hospital.

She believes in careful listening, compassionate care, and practicing evidence based medicine. She strives to form a partnership with her patients in order to determine the best individualized treatment plan and improve their quality of life.

When she isn't working, Dr. Jones enjoys spending time with her husband and son. She plays tennis and enjoys cheering for the Broncos.

Welcome

CENTENNIAL OFFICE 303-632-3694

- Eczema
- Hives / Swelling
- Chronic Rashes
- Contact Dermatitis

Food Allergy and Intolerances

Drug Allergy and Intolerances

Severe Allergic Reactions (Anaphylaxis)

Insect Allergy

Immune Deficiency

YOUR FIRST VISIT

Before your first visit you will be provided with a comprehensive medical history form. This will either be mailed to you or may be accessed on our web site at www.ColoradoAllergy.com. You need to bring this completed to your initial visit.

Your first visit generally includes a thorough medical history, examination, and testing. Based on the evaluation the doctor will formulate a diagnosis and recommend treatment options. The treatment plan which you and your doctor have chosen will be outlined in detail. Education regarding your diagnosis and treatment plan is an important part of your initial visit.

A patient's symptoms can vary with age, season, environment, general health, diet, and even stress. Based on all of these factors, as well as any other relevant issues, we will work with you to design a treatment program which results in the most effective therapy for your medical problems. Our goal is to arrive at a treatment plan which allows you to take control of your asthma or allergy issues. At any time during your visit, please feel free to ask questions if there is something that you do not understand.
