

## Does your child have a peanut allergy?

### They may be eligible to participate in a Research Study.

The study is testing an experimental medication which is being developed for treating people with peanut allergy and is intended to reduce the risk of severe allergic reactions in cases of accidental exposure.

#### STUDY REQUIRES

- Participants must be 4-17 years old
- Diagnosis of a peanut allergy
- Approximately 15 visits to study clinic

#### PARTICIPANTS RECEIVE

- Investigation medication at no cost
- Study-related care from a board-certified physician at no cost
- Compensation for time & travel (upon qualification)

**Call, text or visit our website to see if your child qualifies.**
