STAFF AND OFFICES
We are proud of the skilled, compassionate and efficient staff of Colorado Allergy & Asthma Centers. They greatly contribute to the responsiveness and quality of your care.

Health Care Staff:
• Physician’s Assistants (PAs): take histories, perform exams, prescribe and refill medications, and treat acute illness, all under the guidance of a physician.
• Nurses, Medical Assistants, Respiratory Therapists: assist with patient visits, administer allergy injections, immunizations and medical treatments, triage phone calls, refill and process prior authorizations for medications, perform skin testing.

Office Staff:
• Front desk personnel: provide a professional and friendly atmosphere, schedule convenient appointments, manage telephone calls, and provide information for billing and insurance.

OUR MISSION
We improve the quality of life for children and adults who suffer from Allergy, Asthma and Immunology related illnesses.

Leaders in Allergy and Asthma Care for Over 40 Years
Mark A. Ebadi, M.D.

Dr. Mark Ebadi joined Colorado Allergy and Asthma Centers in 2003. He is board certified by the American Board of Allergy and Immunology.

Dr. Ebadi received his Bachelor’s Degree and Doctor of Medicine from the University of Nebraska. Following his undergraduate education, he was awarded a research fellowship at Dartmouth. He completed internal medicine residency at Northwestern, where he served as chief resident, and then allergy and immunology fellowship at National Jewish Hospital.

In addition to being actively involved in many national and local medical societies, he now serves as a weekly health reporter for WB2 News. He is also an active speaker and educator in the community.

Dr. Ebadi believes in the importance of practicing evidence based medicine in the context of medicine as an art. He strives to always tailor treatment plans to patients as individuals.

Shaile Gogate, M.D.

Dr. Shaila Gogate joined Colorado Allergy and Asthma Centers in 2014. She is board certified by the American Board of Allergy and Immunology.

Dr. Gogate received her bachelor’s degree in Chemistry from Colgate University in Hamilton, NY. She finished her medical school education at Chicago Medical School and her internal medicine residency at Washington University Barnes-Jewish Hospital in St. Louis, MO. She completed her allergy and immunology fellowship at National Jewish Health in Denver and remained on faculty for nearly three years after fellowship.

Dr. Gogate is actively involved in multiple national and local medical societies and is an active speaker and educator in the community. She also has extensive clinical research experience.

She believes that communication between providers and patients is essential. In order to develop the best possible treatment plan, she feels it is important to incorporate current scientific evidence with a patient’s preferences.

She lives in Stapleton with her husband and two children; she enjoys running, hiking and traveling.
